MEMORY'S BELLS.

VOL. 4.

BY CORA

who has not listened to memory's bell, htoming over the heart a bright, joyous spell, That was built by the glotious past?

There it riogs of the gladness or tolls of the And it tells of the far-away times It recalls the boy'd se moved the bright long ago O, I love its sweet changeable chames.

Ah! those chimes; there joys of childhood Now the pleasures of girlhood roll on-

"Till we know that youth's dream was gone. warm scason. &c. Ab ! Its music awakens a glorious theme, And nich feelings of rapture me start; For it belogs to our minds a happier decam; Of across that gladdened our heart,

Weaves over our spirit a spel.

As the great whiel of time so silently rolls,

We will reverence sweet memory's bell. ---

A Subterranean Trip.

[Continued] Hen J & Murray, Judge, Cloverport.

Hen Joseph Harderd.

Court begins on first Mondeys in April and Catebor and centinues two weeks each term.

Some of our party having been in this rights, and exclusive privileges to none Quite a number of gentlemen made their respective automacements on Monday drop in at a theater and at the Firth Average of the parent ourselves with funch and lights for a two days trip, and started early in the morning and were soon at the entrance of the Belt Cave, so called from the

prorest residents, named Belt is about three feet high and about two and one half text from the solit wall because it is wrong—wrong be and two hundred feet long. This entire toom is dry and smooth. When we were in this cave there were numerous boxes and barrels filled with sweet potatores set on this counter, that the extrem have despected in all enterprises tend ing toward the development of the natural resources of the State—I point this county, and some very fine stock. Mr. E summers, near here has now on from year to year raising tobacco and barrels filled with sweet potatores and barrels filled with sweet potatores set on this counter, that the extreme have despected in all enterprises tend ing toward the development of the natural resources of the State—I point this county, and some very fine stock. Mr. E summers, near here has now on band 125 head of extra fine cattle, and will ship them in a few days to St. Lenis, they can do anything also or in fine. toes set on this counter, that the extraction this counter, that the extraction the vicinity had placed there to keep during the winter. I was assured that not one good, sound potato placed there would decay while left there. Between the entrance of this room and the counter is a gream of water that talls down from its a gream of water that talls down from the entrance of this room and the counter is a gream of water that talls down from the proper to one good between the first steps toward entrance of this county, met with a severe loss of this county. They were sold to the bighest before the fight we had two years ago, I would decay while left there. Between the circles of the counter of the counter of the counter of this county, met with a severe loss of this county, met with a severe loss of this county, met with a severe loss of the two evenings of entertain. They were sold to the bighest before the counter of t during the winter. I was assured that it does not prove that they will never beis a scream of water that talls down from crooks and mrns, so that we were com-Bartford—F.P. Morgan Judga, second Mon spelled to leave marks for fear we might be don't stop Modes from telling the loose our way in returning. We found that every one of them, will take one form the loose our way in returning. We found that every one of them, will take the loose our way in returning to day upon the subject, and Kentuckians away from barns and stables from this of the committee and hore it won't be than in the good od days when our loose our way in returning. We found that every one of them, will take loose our way in returning. We found from one opening in the bottom that we dropped a rock down into, and we could be ruled to leave the first stop. Now it the facts, as related to been taken from a great depth in the We finally came to where we thought a would squeeze us too hard to get dowwould squeeze us too hard to get down and crawl, so we returned suppose good not suppose go

Hamilton—J. W. Lankfard, Judge, post
Lodge meetings.

Have then started into the watery tork.

We went but a hor distance before we entered a room which you may call have their prometters and out the educar and it is only within the last ten years that coul in any large quantities has been mined in Kentucky.

In this connection it is a fact worthy of note that recently the Mellenry, we thought we had the privilege to write this about 'crass' and things I write this work recently the Mellenry we thought we had the privilege to write this time Short Line Railroad for 400,000 with market of the way with your dolerous notes then years that coul in any large quantities has been mined in Kentucky.

In this connection it is a fact worthy of note that recently the Mellenry we thought we had the southern States—for years—and it is only within the last out is only within the last out in years that coul in any large quantities has been mined in Kentucky.

In this connection it is a fact worthy of note that recently the Mellenry we thought we had the province of the way with your dolerous notes the years—and it is only within the Southern States—for yea six feet wide and twelve inches deep, theation of my ideas sail views.

We can hard y make a selection from years ago but few persons were aware good walking room on either aide the those already in the field. Indge Baird, that there was large quantities of coal success. most of the way. In this creek are small fish; and claw fish as large as any small fish as large as any small fish; and claw fish as large as any small fish as a large as a lar claw fish These fish and claw fish are and Jones, Sandetur and Massie, Sullens of oil in the vicinity of Hartford—yet cellent business, and we believe him, white and without eyes we caught ger and Midkiff, and many others, which such is the case. Hartford is on the when we go and see the throng of peo. inches high, and stock does well on the some and examined for ourselves. We will give as good material to select from time of the great natural oil belt which ple who crowd around his counters and range. Most of the trees are now traveled on this stream until it closed. It would be a very good idea to hold a passes through portions of many States buy his excellent goods for such small green, and the weather is fine, and the down, and we returned. Resurving, the primary election at an early day, as it and which is scientifically defined bewhen we had to cross the little stream
Those in advance jumped the stream
When I came to it I thought I would the race for Magistrate in this district.

Will certainly be conducive to the intersponding their crops.

Oil is now produced in large quantities in Barren county, on the same belt which passes under Hartford.

When I came to it I thought I would the race for Magistrate in this district. Those in advance jumped the stream

We call on Mr. E. C. Hower to make the first duties of the courses for the first duties of the course for the first duties of the courses for the first duties of the course for the first duties of the courses for the first duties of the first duties of the courses for the first duties of the first dut ether bank. The water was much deeper than I thought it was, consequently I lost my balance and went for the pale taces pretty soon, therefore in that county are tortifying on the outskirts, it is most of late, prospecting and securing leases for wells. The writer of this article is in receipt of a struggle with that will be an ornament to the town. Success to you, Mr. Duncan, in all your above the most beautiful on the bank of Red river.
